

SEO Report

Search engine optimisation for www.trendybazaar.site - 4 October 2026

GOAL

Make Trendy Bazaar stand out on Google

There are many shops with similar names. The aim is for **www.trendybazaar.site** to be the result Google trusts and shows first for "Trendy Bazaar", and to rank our products for searches like "earbuds Pakistan" and "watches Pakistan".

BEFORE

What we found

- The site title still advertised an old product ("Buds Pro 3") that no longer exists.
- No sitemap and no robots.txt, so Google had no list of our products.
- Every page looked identical to Google - same title, no product information.
- The name was spelled two ways ("Trendy Bazar" and "Trendy Bazaar").
- Product photos were up to 1.7 MB each, making pages slow on mobile.

DONE

What we did

Area	Change
Brand name	One spelling everywhere: Trendy Bazaar . "Trendy Bazar" registered with Google as an alternative name, so misspelled searches still find us.
Titles & descriptions	New site title and a unique title + description for every page and product, e.g. "Hublot Classic Fusion Price in Pakistan - Rs. 2,499 Trendy Bazaar".
Product pages	Each product page is now delivered to Google ready-made with its name, price, photo and description.
Price in Google results	Product data (price in PKR, in stock, 2-4 day delivery, 7-day exchange) so Google can show price and stock in search results.
Business details	Name, logo, WhatsApp number, Lahore/Pakistan and our Instagram, TikTok and Facebook pages registered for Google.
Sitemap & robots.txt	Live sitemap listing all 21 pages and products (updates automatically with new products). Admin, tracking and wishlist pages kept out of Google.
WhatsApp / social previews	New share image for the home page; shared product links show that product's photo and price.
Speed	Photos are now served right-sized and compressed (1.69 MB to 8 KB per product card). Admin code no longer loads for customers.
Content	New "Why shop at Trendy Bazaar?" section on the home page; product names are now links Google can follow.

NEXT

Steps to reach the top

#	Step	Why it matters
1	Set up Google Search Console and submit the sitemap.	Tells Google our site exists and lists every product. Most important step.
2	Create a Google Business Profile for Trendy Bazaar.	Shows our logo, reviews and contact panel when people search our name.
3	Add www.trendybazaar.site to Instagram, TikTok, Facebook and WhatsApp Business bios.	Links from our own profiles prove the site is the official Trendy Bazaar.
4	Collect Google reviews from real customers after delivery.	Reviews build trust and push us above similar-named shops.
5	Share product links regularly on social media.	Each share now has a proper preview and helps Google find us.
6	Connect real Google Analytics and Meta Pixel IDs.	Current codes are placeholders, so visits and sales are not tracked yet.

Timeline: results usually start 2-8 weeks after Search Console is set up, with searches for our brand name improving first. No one can guarantee the number 1 position, but the website is now fully prepared for it - the steps above decide how fast we get there.
